

# ITHACA

## ITHACA Sci-Fi Cirque

The year is 2292. Odysseus (Nick Davies) leads a rag tag crew of soldier's home across space. His sole mission... to be reunited with his love, Penelope (Eve Gordon).

But, can he resist the song of the Sirens? Will he survive the might of the Cyclops? Ten years is a long time in space with only one friend and a robot.

An international cirque cabaret inspired from the epic tale that is Homer's Odyssey. Transcending our day to day triviality, be enthralled as skillful performers recreate moments long since lost in an ancient time... Epic love duets, God like flight, and carnal hell on earth.

Be enthralled as the star-studded cast balance, contort and soar through space with wild abandon.

***A 'wow-factor stadium spectacular'.***

- Richard Mays, Broadway World
