The Ice Cream is Melting!

The Ice Cream is Melting!

*Save the Ice Creams.
Save the World.*

Siblings Bonnie and Nikau have been promised a special treat, ice creams! But it's a hot day and on the way home the ice cream begins to melt... Their journey home becomes an epic survival adventure that transforms important issues around environmental change into a double scoop of delight. Sprinkled with aerial acrobatics, contortion, ice cream juggling and more, the siblings fight their way through environmental issues to get the ice cream safely home for the whānau. Children and families delight in this silly, fun and sweet story told through the wonders of circus.

Show includes a companion illustrated storybook to help younger audiences prepare for or reflect on the story.
